

WHAT DOES THIS NEW LAW MEAN FOR MY BUSINESS?

- All sites must have compost and recycling collection service.
- Compost and recycling bins must be placed next to all garbage bins, including indoors, except in restrooms. Items must also be properly sorted into the bins.
- Free help and indoor green bins are available.
- Large businesses that generate surplus edible food—such as grocery stores, food distributors, and large restaurants—must donate food to food recovery organizations.
- For more information or to request free help, visit: www.StopWaste.org/Rules.

SB 1383

California's Compost and Recycling Law

EFFECTIVE JANUARY 2022

Español, 中文, 한국인, & Tiếng Việt www.StopWaste.org/rules-languages

Printed on recycled paper. Please recycle again!

When compostable materials like food scraps, paper, and plant trimmings break down in landfills, they produce methane, which contributes to climate change.

California state law (SB 1383) will help keep compostable materials out of landfills. In Alameda County, the Organics Reduction & Recycling Ordinance (ORRO) is in place to help residents and businesses comply with the regulations set by the state.

The local law is implemented through a partnership between the City of San Leandro, ACI, StopWaste, and Alameda County Environmental Health Departments.

Placing food scraps in the compost bin instead of the garbage helps fight climate change!
